

HEALTHY AT HOME

.....

How much sleep is enough?

According to the Centers for Disease Control and Prevention (CDC), adults ages 18 and older should get seven hours or more of quality sleep per night.

.....

Did you know that 1 in 3 American adults don't get the recommended seven hours of sleep? Consistently failing to get enough sleep increases the risk of significant health problems and has been linked to a variety of chronic conditions such as type 2 diabetes, heart disease, depression and obesity.

Tips for a good night's sleep

It's not just for kids: Most adults need just under 8 hours sleep for good brain function.

Stick to a schedule

Keep bedroom cool

Exercise daily

No electronics in the bedroom
